

UCMUG MEETING — AUGUST 19, 2008 — 6:30pm
At Cumberland Cove, Welcome Center

President Weaver opened the meeting asking for the Treasurer's Report. Treasurer Bill Reichart reported a continuing current balance of \$1,877.72. Since the Secretaries Report was reported on the UCMUC web site. Tom Ackerman moved and Larry Meyer seconded an acceptance of the two reports. Motion passed unanimously. Bill Monday reported that he had the UCMUG labels ready for the library magazine covers at the seven Plateau libraries. He will see they get distributed to the libraries.

President Weaver announced that Bill George had volunteered to present this meeting's program. Much cheering and clapping occurred as Bill is a current and long time pioneer member of UCMUG. For the last thirty-five years, Bill has been active in the Tennessee Plateau area, setting up and operating servers, as well as school and medical IT systems and being an active adviser, organizer and officer in UCMUG. Over these many years, Bill has been collecting computers and associated auxiliary equipment. He has enough antique systems and equipment to fill a warehouse.

Bill brought up the current bargains that the local retailers have on specific software, computer gadgets and accessories. He also mentioned specific web sites that were showing price reductions and even associated Apple and third party stores in Nashville, Chattanooga and Knoxville.

Fortunately for UCMUG members, it seems Bill has a total memory recall on both old and new equipment. If you have a problem Bill can probably tell you some solution, what software and/or piece of computer equipment needed - even the model number which applies. Many questions were asked and answered.

President Weaver announced that the dues for the 2008-2009 membership season are due at our September 16, 2008 meeting. Dues are the same as last year. \$15 per member or \$20 per family membership.

Respectfully submitted:

Rogers Westlake, Secretary
